Plastic	Metal	ADM	Measuring	Surface Finishing
Drop on Powder	Investment Casting	ADM Workshops	CT Scanning	Metal Coating
Stereolithography	Laser Melting	ADM Engineering	3D Scanning	Assembling
Fine Layer Technique	Electron Beam Melting	ADM Quality	Optical Profilometry	Spray Painting
Full Color Polyjet	WAAM	ADM Volume Mfg.	Metallography	Precision Engineering
Gel Dispensing Printing	Lathing & Milling	ADM Spare Parts	Tensile Testing	Shot Blasting
Selective Laser Sintering		ADM Customized Volume Manufacturing	Optical Microscopy	
Fused Deposition Modeling			3D Coordinate Measurement	
Vacuum Casting / RIM	Ceramic		Element Analysis	
PA Casting	Ceramic Printing		Surface Roughness	
Lathing & Milling			Powder Analysis	
Lamination				
Model Building (conv.)				
Elastomers				
Injection Molding				

From more than 20 years of expertise in the fields of ADM (Additive Design and Manufacturing) and Rapid Prototyping we are able to provide you constantly with state-of-the-art technologies. Let us help you being a step ahead.

The highlighted elements show this year's new additions to our service portfolio.
